Instructions:
1. **Create a Slack channel for your team members and invite the TAs and instructors. (We recommend the team member at top of team list does this to avoid redundancy.)**
2. **Decide on a team name**
3. **Name channel as "project-1-team name" replacing team name with your team name**
4. **Update Google doc with your team name and link to Slack channel**
5. *Update Google doc with your Github repo and deployed site as they become available*
